

WWTP Županja

Name of Employer: KOMUNALAC d.o.o. ŽUPANJA

Execution time: 2016 - 2017

Address: Veliki kraj 132
32270 Županja
Croatia

Capacity of the plant:

Physical production rate: 3.513 m³/d, max. 421 l/s

Physical size: 17.000 PE

Methods/Technology: mechanical, biological and chemical treatment

Scope of performance:

The scope of works included designing, construction, completion and commissioning of technological equipment as well as staff training and testing of delivered equipment.

The waste water treatment plant with SBR technology consists of mechanical treatment (coarse and fine screens, aerated sand trap and primary sedimentation tanks), full biological treatment (N&P reduction, C-Tech technology), sludge treatment with anaerobic digestion, sludge thickening, dewatering; biogas treatment, emergency generator and biofilter system.
